resulting in...**increased business productivity**

Select • Train • Assist • Optimize

These four services make up an integrated and comprehensive program. As a business owner, you need services for Employee...

- Selection and Retention
- Training
- Assistance
- Optimization

You will find embedded in Essential Disciplines for Business the vital programs you require:

REFINE: Employee Selection, Performance Review, 360 degree Evaluation, Benchmarking, Staff and Leadership Development, Organizational Best Practices Assessment

SHARE: Communication Training, Management Training

RECONCILE: Conflict Resolution, Stress management, Critical Incident Stress Debriefing, Employee Assistance, Change Management

ENHANCE: Continuous Improvement, Affinity and Interrelationship Diagramming, Team Building

ENVISION: Trait, Mission, Role, Goal and task Management for the Corporation, the Department, and the Individual, Placement; Organization and Priority Management.

Discover how core business processes can be integrated into a carefully designed program that simultaneously generates personal growth, relationship transformation, and culture change--while increasing business productivity.

Most business issues reduce down to a successful or unsuccessful interaction between two people.

- supervisor and supervisee
- owner and employee
- CEO and board member
- salesperson and customer
- president and stockholder

Learn how to succeed at this level and your entire business culture will be positively and powerfully transformed.

Essential Disciplines for Business transforms and simplifies business processes just like “consistent user interface” transformed and simplified computer applications. It teaches you how to navigate relationships. It is the cutting edge of relationship technology and human resource development.
